

## **BUSINESS IN THE NUCLEAR SECTOR BUILDING A SUSTAINABLE SUPPLY CHAIN**

**Workshop and Exhibition  
Tuesday 29 March 2011**

The Nuclear sector is showing significant growth with substantial business opportunities for its supply chain. Businesses in Warrington are uniquely placed to collaborate, share and lead the transformation towards a sustainable future for their products and services.

This workshop is aimed at businesses committed to providing innovative, high quality products and services whilst addressing the increased demand for solutions to environmental issues reducing environmental impact.

In this most challenging economic climate many businesses recognise that embedding sustainable practices now will greatly enhance their future prospects.

### **SUSTAINABILITY**

Sustainability is integral to all aspects of work at Sellafield Ltd. This presentation will provide both current and potential suppliers with an opportunity to learn more about the "journey".

### **TRANSFORMING YOUR BUSINESS – SUPPORTING SUSTAINABLE BUSINESS DEVELOPMENT**

Taking action on climate change is essential now for all businesses. Resource efficiency in energy and waste management are just two of the special advice topics which can help improve environmental performance and cut costs delivered by Groundwork Cheshire to both large and small businesses.

**THE PRINCE'S  
MAYDAY  
NETWORK**

## **WHAT MAKES A WINNING TENDER?**

Securing new business is crucial to the success of any company. In particular for small organisations the process of tendering places a huge amount of pressure on them and tests their ability to provide sufficient resources to manage an effective bid process. This presentation will introduce best practice in tender management for both large and small businesses and provide an overview on the bid process.

## **EXHIBIT**

An opportunity to promote sustainable products and services is being offered to businesses either already in the nuclear supply chain or wishing to be. Refreshments will be served during exhibition times. Further details are available from Birchwood Forum [info@birchwoodforum.com](mailto:info@birchwoodforum.com) or from Susan Spibey 07714 245 745
